Re: Comments to Further Notice of Proposed Rulemaking  
Amendment of Parts 15, 74, and 90 of the Commission's Rules Regarding  
Low Power Auxiliary Stations, Including Wireless Microphones  
WT Docket Nos. 08-166, 08-167; ET Docket No. 10-24

Dear Chairman Genachowski:

As the Principal of Marshall High School in Marshall, Minnesota and the representative of an educational institution that utilizes wireless microphones in our theater, cafeteria, and gymnasiums I am writing you and the FCC to please consider protecting wireless microphones from interference and ensure that users will be eligible for licenses.

We currently use wireless technology in our microphones, intercoms with our public event announcers, actors and actresses, and performers in our building. Our theater is used both by students and staff as well as outside performers. Many of our productions are filmed or recorded and broadcast later over our cable access channels for persons who were unable to attend. These productions play an important role in our rural community to inform and entertain the residents in our district.

The ability to utilize wireless communications helps to allow for freedom of movement on the stage, gymnasium, and cafeteria while real time, crystal clear communications to our congregants. If our system were to experience interference it would create certainly create negative consequences for our productions.

In closing, please consider allowing schools to obtain an FCC wireless microphone license in any rule changes that the FCC adopts so that we may continue with our wireless use as it is currently happening. Thank you for your
